

***Indian Math Online – Free Trial Report
Jan 30, 2008***

Dear Suresh

On behalf of Indian Math Online (IMO), I thank you for enrolling your child Meera in our program and taking advantage of the 7-day free trial.

We have provided a summary of your child's performance during the free trial period. Where appropriate, we have also provided suggestions for improvements and next steps.

We certainly hope you will consider subscribing to our program and continue to enjoy the many benefits of our program. If you have any questions or need further clarifications, please do not hesitate to contact our Customer support at support@indianmathonline.com

Sincerely,

Suresh Murthy
Indian Math Online

Student Name:	Meera Murthy

# of questions not attempted:	0
Overall Proficiency:	Good

Topic	% Correct	Proficiency
Numbers	73	Good
Addition and Subtraction	75	Good
Multiplication	68	Good
Geometrical Shapes	54	Average
Measurements	67	Good

Recommendations

1. We recommend that your child Practice at least three times a week (each session about 30 minutes) on the following topics: Numbers, Addition and Subtraction, Multiplication, Measurements. Practice problems can be assigned easily from our program, including setting up a schedule for each of these topics.
2. We recommend that your child spend 1-2 hours every week for the next 2 weeks learning the concepts of the following topics: Geometrical Shapes. Alongside the learning, we also recommend that your child Practice solving problems related to the above topics.
